

For hands-free beveling of plate and bar stock at a variety of angles

- Bevels metal plate and bar stock
- Bevels aluminum, steel, stainless
- Variable angles between 30° and 60° (25°/55° or 20°/50°)
- Separate variable speed motors for feed-rate and milling-head
- Hands-free operation due to rubberized drive wheel
- Milling head with 8, 4-sided indexable inserts
- Feed rate up to 10 feet/min
- Bevel widths up to 1-1/8 inch (30mm)
- Automatic air/oil lubrication system
- Easy access to milling head
- Safe operation

SPECIFICATIONS	UNIT	MMB 500		
Material Type	Alum / Steel / Stainless	AL	S	SS
Max Bevel Width	inch	1-1/8	1	3/4
Bevel Angle (Variable)	degree	30°-60° (25°-55°) (20°-50°)		
Min Workpiece Size	inch	4 x 4		
Feed Rate	feet/min	0.1 - 10		
Power	KW	7.5		
Spindle Speed	RPM	2000-5500		
Min Workpiece Size	inch	4 x 4		
Dimensions (L x W x H)	feet	5 x 4 x 6		
Weight	lbs	1875		
Number of Inserts	Per Milling Head	8 (4 sided)
