

**Combine the convenience and power
of a mounted beveling machine**

- Changeable milling heads and carbide inserts for different bevel angles and radii
- 8-sided carbide inserts for bevels and radii
- Best used for machining small and medium size workpieces
- Simple manual guidance by hand of the workpiece along the milling head
- Stable table frame with adjustable cutting depth

SPECIFICATIONS	UNIT	SMA 30-E		
Material Type	Steel / Stainless / Aluminum	S	SS	AL
Max Bevel Width	inch	1/4	1/8	5/16
Radius Dimension	mm (inch)	3 (1/8") and 4		
Bevel Angle	degree	30°/ 45°/ 60°		
Power	watt (110V)	1500 W		
Dimensions (L x W x H)	inch	18 x 10 x 10		
Weight	lbs	33		
Number of Inserts	Per Milling Head	3 (8 sided)
